Use of Open Data, IT tools and Online Platforms for Promoting Accountability

*Aleksandra Martinovic,
Member of the Board of Director TI BiH*

Sarajevo, 13 Jun 2019

www.ti-bih.org

TI BIH launched the Portal www.transparentno.ba, which publishes the most important data on business, profits, losses, number of employees and various discretionary costs for more than 230 public enterprises in Bosnia and Herzegovina, in order to increase transparency in governance, prevention of corruption and greater public participation in monitoring of their work.

- DATA SOURCES:

- Initial FOI survey + annual FOI requests
- Web pages of public companies
- Web pages of Stock exchanges

- For public procurement section – PP Portal www.ejn.gov.ba

- Interactive map of corruption prosecution: <http://mapa.ti-bih.org/>

Content of the FOI requests

...Referring to Articles 4 and 11 of the Freedom of Access to Information Act, we ask you to provide us with the following information:

- Composition of the governing bodies - the administration, the SB, the GB with the amount of fees for members;
- The number of employees in your company on any basis;
- Financial Statements with the accompanying annexes for 2016;
- External audit reports;

Also, if you have the following documents, please deliver it to us:

- Report on results achieved and business analysis;
- Performance Monitoring Report;
- Anti-Corruption Program and Reports on Monitoring the Implementation of Anti-Corruption Programs;
- Reports on the implementation of codes of ethics;
- Statements on the conflict of interests of members of the Governing Board and Supervisory Board;
