## Reports and Analyses

### Corruption and Globalization

At least since the Asian financial crisis, the International Monetary Fund (IMF) has, from time to time, included transparency and anti-corruption measures as part of the conditions for countries to borrow its funds. Because of this, it has been criticized as having overstepped its mandate, or even having made crises worse in countries the IMF is supposed to help.

*Shang-Jin Wei, The Brookings Institution, Washington DC, 2001*

### The globalization of Corruption

During the past decade, Corruption has been transformed from a predominantly national or regional preoccupation to an issue of global revolutionary force. Campaigns against corruption are not new. But this decade is the first to witness the emergence of corruption as a truly global political issue.
